

THE CHAMPION CHRONICLE

VOLUME 18

CHAMPION, (Alberta) THURSDAY August 27, 1936

NUMBER 18

Jock's Waggin' Tongue

Vol. 2 Thursday, August 27, 1936 No. 11

Published in the interest of the residents of Champion and District.

The Beach Lady Anne is substantially mounted on a cast base, and well proportioned to provide every necessary convenience. The body and oven are constructed of high quality sheet steel with full electro-melt cast iron fronts, and will give years of economical, dependable service. They are supplied with warming closet or high shelf as desired.

John Dougherty, who was in a car accident this week is progressing favorably.

The 1937 Radio models are on display, if you contemplate a purchase give a call. We will have the Westinghouse and the Stewart-Warner and Philco lines in stock from the largest assortment to choose from ever carried in

Champion. Ross Huggles and Anna Weiss who under went operations in our local hospital are coming along fine.

The hunting season has been set back this fall on account of scarcity of birds in some sections. Our stock of ammunition is on hand for your own protection.

A real good guy borrow a real good soldering iron from a week or so ago. I don't want to change my mind regarding this guy, so hope he reads this ad.

Leave your orders for heater, range and furnace repairs, our connections over the Life Manufacturers' list.

"Sargers would be surprised and awed if the Stewart-Warner and Philco lines in stock from the largest assortment to choose from ever carried in

of cigarette lighters. Anyone wanting to purchase a Flann, has been used very little and in perfect condition. Phone 6.

If your radio is not giving service, we will be glad to give you what assistance we can. A fresh stock of radio batteries has just arrived, the 1937 plug in Type in Eveready, Burgess and General, also the 1000 hour air cells and Globe-Lite 6 and 2 volt A.

Doing His Stuff Husband (arriving home late) "Can't you guess where I've been?" Wife: "I can't, but go on with your story."

Mock Wedding Staged At Shower

Complimentary to Miss Kate Pharis whose marriage takes place in September, the hostesses, Mrs. G. Voisey, Mrs. L. Ditto, Mrs. G. Urquhart and Mrs. C. Davis held a shower at the latter's spacious home. After the forty-five or more guests were seated, they enjoyed a program of community singing led by Mrs. Clements. This was followed by a solo "I will take you home, Kathleen" by Marge McDougall, instrumental, Evelyn Sletta, duet, Lillian Orcutt and Marge McDougall; tap dance numbers by Marjorie Ditto, accompanied played by her sister, Maxine. Others volunteered musical selections.

Then a very humorous and grotesque mock wedding was staged by four very dramatic artists of the neighborhood (Mrs. Voisey, Mrs. Nelson, Mrs. Bailey and Mrs. Ray Warren) which was very much enjoyed by all.

A very tasty luncheon was provided by the community ladies and was daintily served buffet style, the buffet being decorated with a miniature bride and flowers. The dining room was tastefully arranged oriental, hung with tapestries and decorated with articles from foreign lands.

The bride to be, in her jewels and crown looked very charming in the soft lighting with delicate incense burning and a Persian prayer rug at her feet.

Two girls, Marge and Lillian, dressed in Japanese costumes, were cute in inviting Miss Pharis to come sit on her throne, while they showered her with gifts, carried in, in a Chinese basket.

When her attendants assisted her to her feet, Miss Pharis gracefully thanked her many friends for their kindness in a few well chosen words.

Auction Sales

An auction sale is billed for Wednesday, September 2nd when Mrs. Mabel Sutton will dispose of her stock, machinery and household effects as she is giving up farming. Art Hopkins is the auctioneer.

Another sale is to be held on Monday, August 31st when Mrs. Wm. Thomson, eight miles west of Carmangay, will put up her goods for auction.

A social evening for members of the Cleveville Pioneer Club of Champion will be held in the Community hall Friday, Sept. 18th. Only those over 40 years of age will be admitted. Will those ladies who have not been solicited for supper please bring cakes.

Women's Institute - Sept. 8th will meet at the home of Mrs. D. Watkins at 2:30 p.m. Roll Call - My first Photo. Subject Handicraft - Mrs. Clever. Refreshment - Conveyer - Mrs. Stephenson. Will each member please bring some handicraft or fancy work and be prepared to show the others how it is done?

The Alberta government has passed an Order in Council that no new stocks may be turned without a permit from Royal Canadian Mounted Police or some government authority. Hon. W. N. Chant, provincial Minister of Agriculture, warned, - Calgary Albertan.

Car Turns Over Near Mines Road

John Dougherty of Des Moines, Wash., who is a business visitor in the district had an accident on Monday, when the car he was driving overturned on the gravel about five miles north of Champion. Ted Davis, who was working on the road at the time, rushed him to Dr. Freeze. He was taken to the local hospital, where he is suffering from severe shock and minor bruises to the face. The car owned by R. Tyler was badly wrecked. Loose gravel is believed to have been the cause of the accident.

Successful Social

Champion Ladies' Social Credit group celebrated the first anniversary of the Social Credit victory with an ice cream Social on August 22nd, in the old Home Bakery building. This event was well patronized and part of the proceeds will be donated to the Sunday broadcasts from Calgary Prophetic Bible Institute. A handsome birthday cake was contributed by Mrs. R. Maxwell, decorated by the Champion Bakery and afterwards sold.

Ask Co-operation

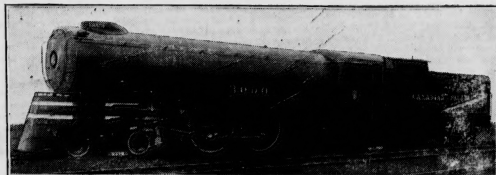

It has been noted and brought to the attention of the group officials that some people who are supposed to be co-operating in the movement of Social Credit who are willing to work for and receive certificates, but who are not willing to take same in exchange for a part of the present currency. We are wondering if this is what they have signed as part of the Covenant? We must all co-operate to make this achievement possible. We wonder if these people will refuse the Dividend. It is to be hoped that from now on those that are supposed to co-operate will do so to the best of their ability.

Card of Thanks

The Champion Ladies' Social Credit group wish to thank Mr. Barberis for the use of his storeroom and also Mrs. Chapin for her kind assistance, and all those who helped to make it such a success. They also wish to announce the next regular meeting will be held at the home of Mrs. Alcock on Tuesday, September 1st, at 3 o'clock.

Fred Watts' garden has again this year been quite prolific, he has had a nice lot of ripe tomatoes, some squash, besides all kinds of the usual garden vegetables.

New Locomotives Poems in Steel

Canada's newest railway locomotives are poems in steel, graceful, light-weight, semi-streamlined. Machines capable of 110 miles an hour. Radical departures in construction have been made in the Canadian Pacific Railway's five new "1000" engines, the first of which was taken over on Monday, July 27, at a brilliant ceremony which was broadcast on a nation-wide radio network through the facilities of the company's Communications Department, and which included addresses by Sir Edward Beatty, C.B.E., K.C., L.L.D., chairman and president of the Canadian Pacific Railway; His Worship Mayor Camille Houdey of Montreal; William C. Dickerman, president of the Montreal Locomotive Company, where the new locomotive was built; and J. N. Burke, Canadian Pacific veteran. The new Jubilee Locomotives, so named because they will go into operation in the jubilee year of the company's transcontinental passenger service, will pull a completely new type of train, lighter than the ordinary, semi-streamlined, and comfortable. The new coaches are under construction.

The Search For Economic Safety

One frequently hears it said nowadays that the subject of economics should find a place, and an important place, on the curriculum of the public and high schools.

The proposal has arisen, no doubt, out of the depression from which the countries of the world have been suffering and their populations growing more or less in the dark, in the hope of finding a way out of the financial and economic difficulties which are besetting them and from which apparently a loss, but is to be hoped a surge, emergence is in progress.

It is urged that matters pertaining to currency and credit are complicated and that the average person arrives at the so-called age of maturity and discretion with very little knowledge to guide him on topics which, after all, are of great importance to everyone. Even the fundamental principles are obscure to the average man, and this applies not only to the farmer on the land and the miner in the country store, but to the average business man in the larger centres.

It is pointed out that after all it is the average elector who must decide what course his country, his province or his community must take through what, to the great majority, is an uncharted sea, at any rate uncharted and unknown so far as they are concerned. It is the average elector who goes to the polls and gives direction, through his vote, to his representative who naturally feels that it is incumbent to carry out the mandate thus conferred upon him.

And in recent years, as a result of general and local conditions, these mandates have largely taken the form of instruction as to what policies should be pursued with regard to the approval or rejection of, and as to whether or not they are feasible. When new experiments in financing are proposed the electors should have some knowledge as to their feasibility or otherwise and as to the conditions on which they are based, and as to the results of similar experiments in the past and elsewhere.

This being the case, it is highly important that the electorate should be well posted on at least the fundamental principles underlying the various economic theories presented for their approval or rejection, and as to whether or not they are feasible. When new experiments in financing are proposed the electors should have some knowledge as to their feasibility or otherwise and as to the conditions on which they are based, and as to the results of similar experiments in the past and elsewhere.

Unfortunately this is not always the case. One hears a great deal of discussion on economic topics wherever groups are gathered together. Some of the contributions to these discussions are based on recent facts and known principles and some, on the contrary are based on pure theorization and largely inspired only by a very natural desire to try something which may prove a panacea.

Equally unfortunately, however, there is always the risk of an unformed electorate, or an electorate not well grounded in fundamentals, rushing into some experiment which might prove to be disastrous in its effects and result in stepping "out of the frying pan into the fire."

These statements are not made with the intention of deriding experimentation in the economic field. On the contrary. The world and conditions in the world are changing almost daily. Progress must and will be made in this as in other spheres of life. In the field of medicine, in the field of science and in other departments of life, enormous progress has been made in recent years, and largely as a result of experimentation, but usually it will be found that this progress has resulted in moving forward step by step along the path of construction on accepted fundamental facts. In these fields results are usually only achieved by workers who know and understand basic principles.

Fortunately the public is awakening to a realization that if they are to guide the destinies of themselves and their fellows successfully in the economic sphere they must have a grounding of reliable information on which to base their conclusions as to what to do. This is demonstrated by the tremendous increase in the sale of books and pamphlets on these and kindred topics in the last few years and in the increased demand for such works at the public libraries.

The greatest immediate danger that exists in this widespread demand for information is the possibility of confusion on the part of readers who are bombarded on all hands with innumerable theories; but this danger may be avoided or at least partially offset. If the reader will search for definite, proven facts, in the light of history and experimentation, and proceed from there to build up his conclusions as to what may be safe and what dangerous.

The proposal to make economics a more important subject of study for the youth of 16 to 21 years of age is one that has considerable merit, but until a new generation is grounded in fundamentals and practical principles, the adults who are being called upon to determine policies for present day adoption must necessarily continue to seek guidance from available literature plus their own good common sense.

The Coronation Procession

Route As Arranged Will Be Longest On Record

Official announcement of the route to be taken by the royal coronation procession on May 12, 1937, showed the drives to and from Westminster Abbey would be the longest on record, covering nearly twice the distance of the previous coronation route taken by the late King George.

The route will traverse no street twice, thus giving the enormous crowds expected from home and overseas ample opportunity to see the pageantry.

"The route from Buckingham Palace to the west entrance of Westminster Abbey will be by way of the Mall, Trafalgar square, Whitehall and Parliament street. The return journey will be via Victoria embankment, Northumberland avenue, Chancery street, Pall Mall, St. James' park, Piccadilly circus, Regent street, Oxford street, the Marble arch and Hyde Park corner."

Board Platinum For War Use

Japanese women adorn their fingers with platinum rings for peace time, so that there shall be a large reserve supply of this precious metal in war time. The nation is on that which the Duke of Connaught, as senior Field Marshal of the British Army, handed to his great-nephew, King Edward, at Buckingham Palace. It reads simply, "His Majesty King Edward VIII, field marshal, January 21, 1936." 2165

Must Obey Or Suffer

Small Wonder Russians Do Not Look Particularly Happy

Hon. W. D. Euler, Canadian minister of trade and commerce, has been looking at Germany and Russia. On a purely business mission, his observations are naturally confined to the general conditions. He did comment on the fact that in Moscow, greatest of the Soviet cities, the people did not look particularly happy. If this is a true remark, it nevertheless comes from a man who is well accustomed to sitting up crowds in a realistic way. There is value in this. It is a relief from the more familiar and more scientific analyses of Russian systems of development.

Whatever their benefits and their ideals, the people of Russia to-day are forced to follow a mode of life and work set by a small dictatorial group at the head of the state. It is not for them to complain that it is not the way they would choose; they obey or they suffer.—Hamilton Spectator.

Inscription Is Brief

The briefest inscription which has ever appeared on a field marshal's baton is on that which the Duke of Connaught, as senior Field Marshal of the British Army, handed to his great-nephew, King Edward, at Buckingham Palace. It reads simply, "His Majesty King Edward VIII, field marshal, January 21, 1936." 2165

The Champion Loser

Man Who Lost Millions By Selling Stock Too Soon

Among the many romantic aspects of the colossal growth of the Ford Motor Company nothing is stranger in all the history of finance, perhaps, than the large fortune made by James Couzens, and the huge loss suffered by Alexander Y. Malcomson, who was Ford's principal banker. Senator Couzens made 29 million dollars; poor Malcomson cheated himself out of close to 300 millions. Instead of becoming one of the world's richest men, he sold his stock for a mere pittance.

The Ford Motor Company was incorporated on June 16, 1903. Fifty-one per cent of the stock issue of \$100,000 was split evenly between Henry Ford and Alexander Malcomson. Among the other stockholders were Couzens, at that time only a clerk in the auto business conducted by Malcomson, who subscribed \$2,000 and the Dodge brothers, John F. and Horace E., who contributed to build the Ford in their machine shop and who each got a \$5,000 interest in the Ford Company.

In 1906, Malcomson sold his \$25,000 worth of stock to Ford for \$175,000 and probably thought he was doing handsomely inasmuch as he had secured his original investment six times in three years. But wait—Couzens when until 1919, a year in which the company's profit was close to 70 million dollars. The Ford family bought Couzens' stock of \$25,000 and paid him 29 million, 308 thousand dollars for it. He was the last minority stockholder. Had Malcomson not sold out till then, he would have owned 10 per cent of the stock as much as Couzens did, or approximately 300 million dollars.

Malcomson thus must go down in financial history as the loser. He was on the books; as a man who stood to gain the largest profits on record he didn't have the patience or the wisdom to wait thirteen years longer.

Dream Highway Progressing

Proposed Road Between Alaska And South America Being Developed

The "dream highway"—a good road from Fairbanks, Alaska, to Buenos Aires, South America, 12,000 miles away—is being developed, but there still remains plenty of mileage to fill, in which the mining sections in the mooted British Columbia-Alaska road are a major part.

Work on the highway can now drive over well-paved roads as far as Mexico City, 3,600 miles, or little more than one-quarter of the mileage that will be available for him when the Pan-American highway is fully completed. The same highway, however, extends an additional 1,000 miles northwest to British Columbia to Hazelton, B.C.

One of the first definite links to be completed will be the route from City to Panama, of which 165 miles to Tehuacan is already passable by motor.

Another difficulty in the making of the highway will be the construction of a road over a 400-mile stretch of the Pacific and mountainous terrain from the city to the Colombian border in South America. South America has considerable stretches of excellent road, but occasional rough and rugged patches.

In Peru the government laid down 2,000 miles of good road from the northern border of Chile. From there to Santiago in Chile the motorist can travel on another highway 1,577 miles.

From Santiago, a road leads eastward over the Andes mountains, a highway constructed under incredible difficulties and open only in summer. At Mendoza in the Argentine this road joins the Argentine section of the highway, which runs for 850 miles to the southern terminus of the "dream highway," Buenos Aires.

Stages A Surprise

Geyser In Yellowstone Park Batters His Own Record

The longest and shortest intervals between eruptions of Old Faithful Geyser were recorded at Yellowstone Park, Wyoming, recently. The usually reliable geyser spouted once at 11:56 a.m. and then burst into action again at 12:39 p.m., a wait of only thirty minutes. Then followed an interval of 92 minutes, or until 1:53 p.m. Old Faithful calmed down for 45-minute intervals between outbursts.

What nation produces the most marriages? Fascination.

More than 6,753,000,000 pieces of mail passed through the British post office department in the last year.

England's average annual income per capita is about \$250.

Predicts Long Drouth For U.S.

Weather Man Would Move 50,000 Families From Dry Areas

Migration of 50,000 families from the drouth-damaged farms of the great plains of the United States was recommended in a population survey of that area by Dr. W. Thornthwaite, former University of Oklahoma climatologist.

His study, published by the University of Pennsylvania, contended wild erosion had damaged 65 per cent of the plains region, extending from the Canadian border into the Texas Panhandle.

A long-range government program for the return of millions of acres of wheat land to its native sod, he said, might be the only means of checking the devastating dust storms.

Observing long dry spells have been frequent in the history of the United States, Thornthwaite predicted "the present drouth might be prolonged for 20 or more years."

Evidence from tree rings, lake levels and other sources was cited in the survey to show a 40-year drouth began in 1825 and was interrupted by only occasional rains.

But the weather expert estimated that a minimum of 12,610 families should move from the drought-stricken state in which he reported the greatest "surplus population." He urged a migration of 12,000 families from Texas and 7,500 from North Dakota. Heavy removals also were suggested for South Dakota, Nebraska, Kansas, Oklahoma, Wyoming and Colorado.

"The ideal situation in the great plains," he said, "would be a practically complete return to a grazing economy where pasturing of the range is supplemented by the raising of feed and forage crops."

Newspaper Favors

Many People Who Are Expecting Something For Nothing

We have often reflected upon the slowness of people to thank editors for the favors which newspapers do for them. The newspapers and organizations are constantly asking for publicity to assist them in promoting various kinds of worthy causes. It is the only common sense from circulation which publishers have to sell, and this is a fact which too many seem to forget. Some are even critical of the favorable notices which we give them and their projects. A still greater number forget to make any acknowledgment of the courtesy extended to them. We have in mind a biblical instance of ingratitude in which only one man was thoughtful enough to return with thanks on his lips and in his face.—Toronto Mail & Empire.

Leaves Estate To Secretary

Fleet Street Writer Gave Fortune To Lifelong Friend

The estate of Arthur of the best known of Fleet street writers, was probated at \$80,000 (\$450,000). He left practically all of it to his secretary and lifelong friend, George Brown. Both were bachelor and lived together for 46 years. Baumann suffered paralysis for 12 years and Brownning taught him to use his left hand. Baumann was 80; Brownning is over 70.

New Revolver Tested

A new revolver of tremendous power, which J. Edgar Hoover says might wreck an automobile engine with a single shot, is being tested by the United States bureau of investigation which he heads. The gun, 44 to 49 ounces, inflicts a large wound and the impact of a bullet from it was said to have a force of 81000 pounds. The regular service type has an impact of only 350 pounds.

"Do you know why your stories aren't in the magazine?"

"Yes, that's the whole trouble."

"The advantage of using a tact is that you feel no happy neutral when a tender is crumpled."

All Of Same Make

Trapped For Six Months

King Edwards' Car Thirty-Seventh
For British Royals
 The first royal car in the world—It is still in running order—was a 6-horse power one supplied to King Edward VII, then Prince of Wales, in 1899, states the Overseas Daily Mail. From that year the Kings and Queens of England have owned thirty-six state cars, all of the same make. King Edward's new car is the thirty-seventh. The last big car was used by King George was made specially for his jubilee tours in London.
Soviet Soldiers Caught In Mountains
 By Great Hilliard
 Three Soviet Russian Cruisers, trapped in the blind, snowfilled mountain passes of Western Siberia without supplies, not only maintained themselves for six months, but also several escaped convicts, border jumpers and other criminals they had captured in the mountains.
 The Red Army men left Novosibirsk Sept. 3 of last year for a mountain post carrying a month's supply of food and ammunition. A great blizzard swept the land two weeks later. When the men crept from their tough huts, every outgoing pass was obliterated. A border patrol sent to search for the men returned empty handed.
 Again in March of this year, when the mountain snows were melting, a squad of soldiers set forth, this time bearing supplies for the beleaguered soldiers of their buddies. Approaching the camp, they saw a thin wreath of smoke in the air. Rifle signals were returned with rifle signals. The bearded Cruisers tumbled into the arms of their rescuers.
 Several hundred men had built themselves about tough huts, lived on wild game, with which the region abounds, perfecting themselves in marksmanship so that no bullet was wasted. They had not had bread for six months.
 Several lawbreakers, whom they'd picked up in the mountains, and who had lived freely with the Red guards, went back to civilization with them.
Football Fans Defy Fire
 Firemen Had To Force Them From Grandstand In Australia
 Three thousand football fans sat amid the smoke of an uncontrollable fire in a grandstand in Sydney, Australia, and engrossed in the game, they refused to move until forced to do so by firemen. A few minutes after they had left flames burst through the roof. Until the firemen acted the fans regarded the blaze as a joke, and paid churlish attention to the game, which was continued despite the fact that clouds of smoke were blowing across the field.
 "Opportunity knocks for every man." A woman gets a ring.

The Champion Chronicle

L. A. STARCK
Editor and Publisher

Thursday, August 27, 1936

Monday evening a nice little shower fell over most of the district with of course some spots getting more than others.

The local elevators have this season handled approximately 67,000 bushels of wheat so far.

Mrs. A. S. Roberts of Barons, Mrs. G. M. Campbell, Miss Rheta Campbell and F. Divrell of Edmonton are spending a few days holidaying at Waterton Lakes National Park.

Mrs. A. Ferguson is having the pleasure of a visit from her three sisters, Mrs. B. R. Dow, of Odo, Minn., Mrs. Swenson, of Odo, Minn. and Mrs. G. Farmer of Ardock, N. Dak., also two nephews, H. P. Swenson, of Odo, Minn., and E. Paupst, of Emerald, N. Dak.

We will accept scrip on subscriptions to the Chronicle from delinquent subscribers.

F. G. Beaumont, Barrister of Carmangy will be at the Chronicle office every Tuesday morning.

HERBERT J. MABER
SOLICITOR, BARRISTER, NOTARY
VULCAN

At U. S. Alexander's office every Thursday

Dr. DAVID NICOL
DENTAL SURGEON
In Champion Thursday and Friday

Mrs. Anderson, Misses Ruth and Gladys Anderson, A. Anderson and R. Robinson motored over the Loggan Pass this week.

Mrs. P. Lukins left this week for Ensign, having received word that Clarence, son of Mr. and Mrs. W. Collinson, had broken his arm.

Bill Diemert has had a building in which to carry on business moved on to the lot where fire destroyed the other buildings recently.

Mr. and Mrs. R. D. Farries have taken up residence in the Louis Fath house, Mrs. Carlson taking up residence in the house vacated by Mr. Farries.

E. D. Matlock was unfortunate last week in getting a finger of his right hand caught in the combine which had to be cut off at the first joint.

Mrs. C. Bomer left Monday for San Francisco where she will reside in the future. Mrs. Bomer motored as far as Spokane with Mr. and Mrs. R. L. Smith.

PERMANENT WAVING

Miss Marjorie Hill, permanent wave specialist of Kay's Beauty Parlor of Calgary, will be at the home of Mrs. A. W. Jopling on Tuesday, September 8th. Miss Hill is a graduate of the Maxine Beauty College of Vancouver and has specialized in permanent waving, giving beautiful soft, natural waves. For particulars see Mrs. Jopling at phone 40. Special rates for girls under 15.

Comfortable rooms for light house keeping very reasonable, fine for students.

Mrs. B. N. Woodhall.

Card of Thanks

Mr. and Mrs. Fisher and family wish to thank all who sent flowers, books, refreshments and helped so kindly during Mae's recent illness.

Local & General

Miss E. Kremer and Miss H. Gittel visited in Stavelly recently.

Mrs. T. Sison has as her guest, her niece, Miss Shackleton of Toronto.

Miss Ross who has been in Calgary for the past month returned Tuesday.

Mrs. A. Sipas, resident at the McEw mine is a patient in the local hospital.

Mr. and Mrs. Wayne Anderson were Nobleford visitors over the week end.

Miss Barbara Bastin is the guest of Miss Buddy James in Lethbridge this week.

Mr. and Mrs. W. F. Richter and Mrs. J. A. Kolpas motored to Calgary on Sunday.

MEY—a complete new line of work shirts, socks, underwear caps, etc. at Campbell's.

Ross Ruggles recently underwent an operation for appendicitis in the local hospital.

The weather is beginning to feel some what like fall, and the days are drawing in.

Mrs. W. M. Diemert gave a dinner on Sunday, the occasion being Betty's fifth birthday.

Mrs. P. O. Sommers returned Wednesday from Vancouver, having spent the summer there.

Mrs. G. Urquhart spent a few days visiting at the home of Mr. and Mrs. C. Davis this week.

Gospel service will be held in Campbell's hall on Sunday, August 30th, at 7.30. All welcome.

Dr. Talbot of Calgary was a visitor in town Monday at the home of Mr. and Mrs. F. C. Alcock.

Miss Annetta Weiss is progressing favorably following an operation for appendicitis on Tuesday.

Peaches, pears, prunes, crab-apples etc., for canning, all at Campbell's.

Mrs. B. N. Woodhall would appreciate produce on accounts when it is not convenient to pay cash.

Fred Divrell of Edmonton has been the guest of Mr. and Mrs. G. M. Campbell during the past week.

Mr. and Mrs. Geo. Scott of Claresholm were recent visitors at the home of Mr. and Mrs. D. D. Farmer.

If you want to see some home-grown pears out of M. G. Clever's garden, look in Campbell's window.

Mr. Thorn, salesman in charge of the sale sponsored by McCullough Bros. left for Drumheller Sunday.

Edgar Huts who has spent the past week visiting his sister Mrs. Wayne Anderson, returned to Creston Sunday.

Mr. and Mrs. R. I. Baker and family are back from their holiday. Mr. Baker's father drove them down from Calgary.

Scout activities will soon be going on again as the scoutmaster and assistant scoutmaster have returned to town.

Miss Doris Lucia was a Champion visitor on Sunday, returning to Clyde after spending the holidays in Nobleford.

Mr. and Mrs. Geo. Orr and Elsie have returned from a very enjoyable trip, they visited Yellowstone Park and other points.

Miss Molly Bastin, who is returning from England on the R. M. S. "Empress of Britain" is expected home at the beginning of the week.

F. J. Hardisty left for his home in Spokane, after seeing his crop off; he was satisfied with the return considering the season.

Jack Carson and two sons of Calgary were visiting at the home of Mr. and Mrs. B. Hummel on Tuesday. Miss Dorothy Hummel returned to Calgary with them.

Mr. and Mrs. Robert L. Smith of Palouse, Wash., following a holiday spent in Glacier National Park, visited the district last week. Mr. Smith having had interests here. They were the guests of Mr. and Mrs. A. Hopkins.

Margaret E. Patterson
A. T. C. M.

Teacher of
Piano and Theory
Conservatory candidates of last term all passed with first class honours.

Starting next week the weekly half holidays will be going again.

Milt Moffatt moved his furniture to Lethbridge on Thursday where they will reside.

Mr. and Mrs. A. H. Robinson and two sons of Williston, N. D. are visiting at the home of the farmer's sister, Mrs. Adam Ferguson.

Another rain covered the district Tuesday night and Wednesday morning this appeared to be more general. A few scattered showers have been going the rounds also.

A recent visitor here was Thos. Tredway of Crossfield, an old timer in this section. Mr. Tredway has had interests in this vicinity which result in an occasional visit, which is welcomed by many friends.

Mr. and Mrs. Geo. Harper visited at their farm west of town and also other homes in the district during the latter part of their holidays, leaving for High River the first of the week for the reaping of school.

School opens Mon., Aug. 31st.

Printers' Ink And The Farm

Canada is the chief producer of carbon black in the British Empire and most of the carbon mentioned in the statistics as originating in Empire countries is in fact from Canada. The carbon is used for many purposes but principally in the printers' ink trade and the rubber industry. Printers' ink of other days, in common with many other important articles of commerce, was originally an agricultural product. The inks of the very early ages were prepared from charcoal or soot mixed with gum, glue or varnish, much after the style of the ordinary black printing ink of today, the principal constituents of which are lamp-black and thick linseed oil.

The Chinese ascribe the invention of ink to Tzu Tzu who lived between 2507 B. C. and 2507 B. C., and it is known that the ancient Egyptians prepared and used inks at a very early date. An Egyptian document—a papyrus—with written characters of the date 2500 B. C. is still in existence. Two thousand years later the emperors of Greece and Rome were wont to sign their decrees with a flourish in purple ink. Since these days numbers and kinds of ink have been many and today some of the finest inks in the world are manufactured in Canada.

Champion Meat Market

Outstanding Specials this Week End

BACON, our usual Quality 23c lb.

Any size or weight cut.

LARD, whilst our stock lasts 7 lbs. for \$1.

Competitive prices on all cuts Beef or Veal
